

Basic Beekeeping: Starting Right with Bees

A comprehensive class for beginning beekeepers.

Saturdays 9am-1pm | January 19, 26, February 2, 23

Central Tech Business Center

201 N Settle Dr | Drumright, Okla. 74030

(Just west of Hwy 33/99 North Intersection)

Class 1

Learn the basics of bee terminology, legal issues involving beekeeping, essential equipment for beekeeping and how to obtain such equipment, anatomy of a hive, and how to acquire bees.

Class 2

Delve into the details of bees, including the biology and types of bees, enemies of the honeybee including diseases and pests, how to medicate bees if necessary, selection and preparation of an apiary site, and proper hive procedures.

Class 3

Learn proper management techniques for Oklahoma's changing seasons, how to gather swarms, set up proper record keeping practices, and properly assemble equipment.

Class 4

Bring your tools and safety glasses and build your very own hive.

**\$99 per person or
\$129 for a family**

Cost includes class, book and one year membership in North East Oklahoma Beekeepers Association. Family registration limited to 4 in a single household.

Cost does **not** include bees, or supplies and materials for the construction of your hive.
